

# BV POWER

**Here are a few reasons why you can trust BV POWER ...**

- **25 year warranty**
- **Guarantees you will save money from the first day that your system starts producing power**
- **Good for both residential and commercial use**
- **ZERO money out of pocket**
- **Tax incentives - different state by state**
- **Highest customer satisfaction scores**
- **Over 16,000 successful installations**
- **Saves customers almost \$45,000 on the life of the system**

---

**Our mission is to make solar accessible to every home in the United States to upgrade to clean, renewable energy and capitalize on the current energy revolution**

---

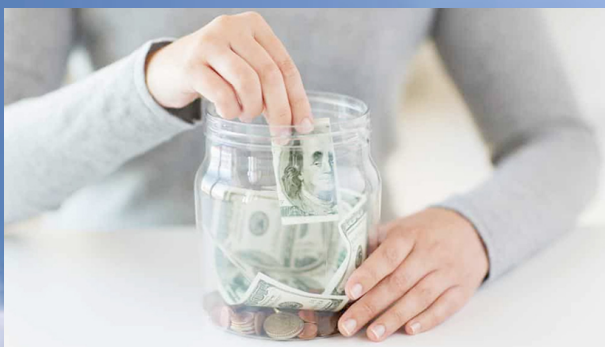

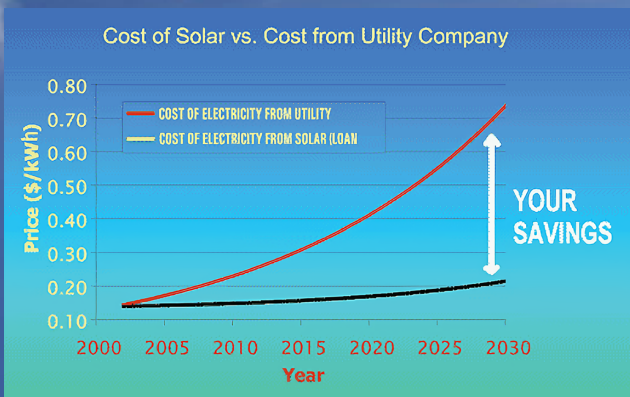

# Before Solar

**Save Your Money.**  
Nationwide, utility companies have doubled rates over the past 20 years. In some states, they have quadrupled. By going solar you do not pay your energy utility company for the electricity you consume that you generate.
